Strategic Plan for Political Action

1. Build connections with UCP and Alberta Party through engagement opportunities
2. Maintain current relationships with the NDP party
3. Find synergies between the CBE, the trustees and us in order to lobby effectively for mutual interests
4. Build and enhance our reputation outside the world through engaging key stakeholders.
5. Link with other internal committees within Local 38; collaborating more efficiently as a local.

Personal Rationale

There are many reasons why I believe I would be good fit in this leadership position. I possess the strong interpersonal skills to delicately negotiate topics when dealing with politicians. I enjoy the collaborative process and the democratic advantages of building action plans together as a committee and as an organization.

I have worked in a political start-up party and I can see the natural similarities between their process and ours. During this process, I have obtained an array of skills and deeper understanding of the fundamental nature of political organizations.
