

What is a Racialized Staff Affinity Space?

A Racialized Staff Affinity Space is a space where BIPOC educators can come together to find support, connection and inspiration. These spaces provide targeted and necessary support to educators facing unique challenges because of their race.

A Racialized Staff Affinity Space also aims to combat the isolation and labour that comes with being a racialized educator in schools that lack diversity in staffing or do not reflect the diversity of the student population.

This space provides the opportunity to discuss issues in confidentiality and gather a variety of different perspectives and support.

Also, no gathering to navigate difficult topics is complete without snacks.

Yes, snacks and drinks will be provided at all Racialized Staff Affinity Space Meetings.
